

PREMI-BOOST+ PIGLET

Vetsense Premi-Boost+ is a specialized nutritional paste designed to support the health and vitality of weak, underweight, and premature piglets.

Formulated with a precise blend of essential vitamins, minerals, and amino acids, Premi-Boost+ provides comprehensive support for the early development and growth of piglets.

- ✓ Supports growth, development, and vitality.
- ✓ Boosts energy in weak and underweight newborns.
- ✓ Promotes immune function, digestive health, and overall well-being.
- ✓ Aids in the prevention of nutritional deficiencies and supports optimal growth trajectories.
- ✓ Easy-to-administer paste formulation ensures accurate dosing and maximum effectiveness.

CONVENIENT DOSING APPLICATOR

Premi-Boost+ 250mL comes with a separate dosing applicator that delivers precisely 2mL per dose. This ensures accurate and convenient administration to newborn, underweight, and premature piglets.

The applicator simplifies the dosing process, making it easy for caregivers to provide the necessary nutritional support to young animals.

PACK SIZE: 250mL

DOSE RATE

ONE PUMP = 2ML

2mL: Newborn, underweight, and premature piglets, soon after birth.

Repeat the following day if necessary.

For any remaining product, reapply the original bottle cap and store in a cool/dry place for up to 3 months.

Rinse and clean trigger prior to reusing.

SHAKE WELL BEFORE USE

KEY INGREDIENTS AND THEIR BENEFITS

VITAMINS

THIAMINE HCL (VITAMIN B1)	Essential for carbohydrate metabolism and nervous system function, aiding in energy production and overall vitality.
RIBOFLAVIN (VITAMIN B2)	Supports growth, vision, and healthy skin, promoting optimal development in piglets.
NIACINAMIDE (VITAMIN B3)	Crucial for cellular metabolism and energy production, supporting overall health and vigour.
PYRIDOXINE (VITAMIN B6)	Facilitates protein metabolism and immune function, contributing to robust growth and vitality in piglets.
CYANOCOBALAMIN (VITAMIN B12)	Vital for red blood cell formation and neurological function, ensuring proper oxygen transport and vitality.
VITAMIN C	Acts as a powerful antioxidant, supporting immune function and protecting against oxidative stress in piglets.
VITAMIN A	Essential for vision, growth, and immune function, promoting healthy development and resilience.
VITAMIN D3	Facilitates calcium absorption and bone development, crucial for skeletal health and overall growth in piglets.
VITAMIN E	Protects cell membranes from oxidative damage, supporting immune function and overall well-being in piglets.

ESSENTIAL AMINO ACIDS

LYSINE	Supports protein synthesis and growth, aiding in muscle development and overall strength in piglets.
METHIONINE	Plays a key role in protein synthesis and metabolism, supporting tissue repair and growth in piglets.

MINERALS

IRON	Essential for oxygen transport and haemoglobin synthesis, preventing anaemia and promoting overall vitality in piglets.
-------------	---

ENERGY SOURCE

MCT OIL	Medium-chain triglycerides provide readily available energy for piglets. They are easily digestible and quickly absorbed, supporting rapid growth and development.
GLUCOSE	A primary source of energy, glucose provides immediate fuel for metabolic processes in piglets. It aids in maintaining energy levels, supporting vital functions, and promoting overall vigour.

Premi-Boost+ is the trusted choice for farmers, breeders, and caregivers seeking superior nutritional support for their young livestock. Give your newborn animals the best start in life with Premi-Boost+
